

Neal Glazebrook

League of Michigan Bicyclists (LMB) events past, present, and future.

Our Events Director Neal Glazebrook will present a history and road map of where LMB events have been and where they are heading. Road touring has been the mainstay of offerings for nearly 40 years but recent shifts in the organization have opened up new opportunities for the LMB to broaden the event line up and share not only with Michiganders but folks from around the globe how great of a cycling state Michigan is.

I am an avid amateur cyclist who competes in ultra distance Gravel and Mountain bike races here in Michigan. I ride both for sport and for pleasure.

I am the Events Director for the League of Michigan Bicyclists, A founding board member of Go Liv Co - Horal Family Foundation, former Chair of the Livingston County Transportation Coalition, course designer for the Tour de Livingston, Chair of the Oceola Township Planning Commission, a Howell Rotarian, founding member of the Livingston County Gravel Riders and I currently sit on the MDNR NAW Board (Non-motorized Advisory Workgroup). I am also a Member of MCMBA, POTO, and CRAMBA Mountain bike chapters.

In my professional role I plan and help to put on 3 week long cycling tours, 1 weekend long cycling tour, and a handful of single day events. In my local advocacy roles I design event courses, help facilitate infrastructure development, and in general focus heavily on non motorized and active mobility initiatives.

I have a BBA in Marketing Management from Baker College and have worked in many industries before my full transition into non profit and advocacy work last fall. I live in Howell, Hometown.
